

The number of impoverished countries in 2012-2020

Between 2012 and 2020, the overall number of impoverished countries showed a downward trend.

From 2012 to 2015, the number of impoverished countries remained unchanged at 832, but a turning point occurred in 2016 and the number steadily declined, reaching 52 in 2019. In this period, the annual decline rate continues to increase. Finally, after another year, the number of impoverished countries increased to zero.
